

## NARRATIVE AND PLANS ATTACHMENT

### TYPE 1 REZONING FROM B3-2 TO B2-3

#### Project Description

The property is improved with a three story mixed use building with two parking spaces. The applicant seeks to rezone to allow a residential dwelling unit on the ground floor converting the building from 2 dwelling units to three dwelling units. No commercial use is proposed and building height will remain at 34.6 feet.

Lot Area: 2088 sq ft

MLA: 696 sq ft

FAR: 1.75

Parking: 2 off street parking spaces

Setbacks:

- 32 feet from building to alley
- 3 feet from garage to alley
- 11.5 feet from curb to front of building

Building Height: 34'6"

### Compliance Statement

I hereby certify that these drawings were prepared by me or under my direct supervision and that my knowledge conforms to the applicable codes and ordinances of the City of Chicago.

Julia B. Buehler, AIA

### Location Map

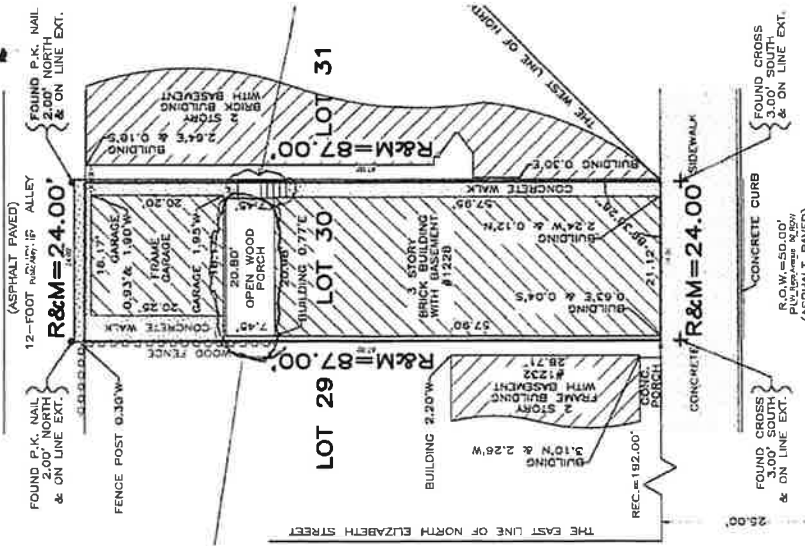

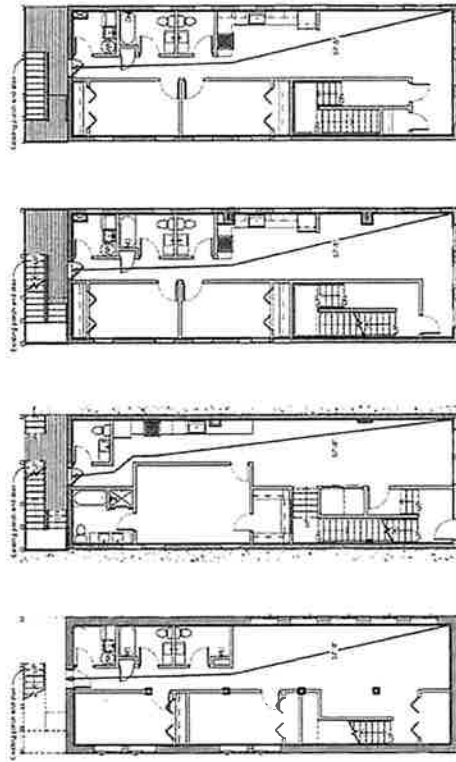

### General Notes

The latest edition of the AIA Document A201, General Conditions of the Contract for Architectural Services, is incorporated by reference into this contract. The project is located at the intersection of North Elizabeth Street and West 31st Street, in the Loop area of Chicago. The project consists of a three-story brick building with a basement, to be converted into a residential unit. The building is currently occupied by a commercial tenant. The project is subject to the following conditions: 1. The project shall be completed within the specified time frame. 2. The project shall be completed in accordance with the approved plans and specifications. 3. The project shall be completed in accordance with the applicable codes and ordinances of the City of Chicago. 4. The project shall be completed in accordance with the applicable standards of the industry. 5. The project shall be completed in accordance with the applicable standards of the profession. 6. The project shall be completed in accordance with the applicable standards of the community. 7. The project shall be completed in accordance with the applicable standards of the environment. 8. The project shall be completed in accordance with the applicable standards of the economy. 9. The project shall be completed in accordance with the applicable standards of the culture. 10. The project shall be completed in accordance with the applicable standards of the society. 11. The project shall be completed in accordance with the applicable standards of the nation. 12. The project shall be completed in accordance with the applicable standards of the world.
