Type-1 Narrative and Plans For 6716 S. Bishop Street, Chicago IL

Proposed Zoning: RM-4.5 Residential Multi-Unit District

Lot Area: 3,115 SF

Proposed Land Use: The applicant is proposing to rehab an existing old 2-story frame residential building with an existing 2-story rear addition and containing two (2) dwelling units. Pursuant to CZO Section 17-13-1103-A, the applicant is seeking a variation to reduce the total side setback combination from 5 feet to 2.65 feet and the south side setback from 2 feet to zero.

- A. Project's floor area ratio: 1.22 FAR.
- B. Project's density: 1,557.5 SF 2 proposed dwelling units.
- C. Proposed off-street parking: zero parking spaces.
- D. Setbacks:
 - Front setback – Existing to remain
 - South setback: – None
 - North setback – 2.65 feet
 - Rear setback – 33 feet
- E. Building height: 28 feet existing to remain

17-13-0303-D Optional variation to reduce the south side setback and the total side setbacks from 5' to 2.65' pursuant to section 17-13-1103-A.
